To those people looking to hire a professional wallpaper hanger:

Jim Reeves and his men are true professionals \_ in the quality of their work, in their appearances on the job site, also in keeping a clean work area, and in meeting time schedules.

Most wallpaper hangers are "\_\_\_\_\_" (you fill in the blanks). They are non-professional and do not know how to meet time schedules. Although they talk like they can meet your schedules. Not Jim Reeves. He is faithful and trust worthy.

He is the best in the Phoenix area. I have used many hangers in the last 30 years in this valley and no one is better than Jim Reeves and his people. He can do very complicated projects and I have severely tested him over the years. Jim always has a very positive attitude about doing the project to your specifications and needs.

I highly recommend Jim Reeves for any project. He is the greatest.

  
Don Henning
